

## SAVE ME FROM MY MUTINY

I guess I am not the easy one when it comes to accepting your replies

I guess I am not the easy one when I reach out to you and you imply

Running along

unable to tell

Like a big whale lying trapped on the shore

Save me from my mutiny

Discharge all your haziness and melt

Sunrise might be helping us to unspell

And recall what we used to know

Unspell and recall what we used to know

I guess I am not the easy one when it comes to attempts to hush you up

It's maybe why I'm loosing touch I am overwhelmed and it still makes me crash

Save me from my mutiny

## SLAVE TO MY MIND

I've been around for all your crimes  
It didn't hurt so much to learn to strive  
I've come along with empty hands  
Why does it bother you to comprehend?

Now I want to cast my guilt upon your chest  
Since you've been wrong

You set the scenes way too ahead of actions my real life has yet to take  
You arm me with hatred and knives that might not take too long to get pulled out

Now I want to cast my guilt upon your chest  
Since you've been wrong

## DIZZY HEIGHTS

A moment to resist  
I am propelled to the sky  
Dizzy heights and twists  
Right place where I can hide  
From all your scold  
Hide from all your scold

Nibbling at her lips  
My blossom lemonade  
Swooning as she grins  
I don't want to come down  
from dizzy heights  
I don't want to come down  
from dizzy heights

No will to resist  
I am propelled to the sky  
Butterflies and twists  
I don't want to come down  
from dizzy heights  
I don't want to come down  
from dizzy heights

## FOREST

I'll be the forest you hide in

I'll never betray

Consign me your secrets  
and walk into my lush world

I'll make your beauty unfold

I'll keep you refreshed

Just lay your head onto

My pillows of moss and fern

Try to be like one of us

Undress your weary face

Put senses on overdrive

Pick up a potion and leave the blind fool you were outside behind

I am the moon on the sky

Still as a dead bone

I watch the array of heavily controlled folks

Try to shine like one of us

Ascend the stairs up to me

Money takes time to defeat

Pick up a potion and leave the blind fool you were outside behind

## UNKNOWN PLEASURES

If you feel all right  
It hasn't happened to you yet  
You see all colors bright  
And there's nothing standing in your way

Woke up like brand new  
Don't invade my persuasion  
Disemboweled like a hare  
Woke up like brand new  
Please don't feed misperception  
I am rubbing hands I'm content

Then we could run to a random place in the hope we'll forget about it all

## THE HAUNTED MAN

Now you've got your money  
Your eyes are shut as you're walking by  
You are burning with shame  
For what you've done to friends  
You've let them down  
I think it stands to reason  
That they've come to hate you  
Initiate you into the street life  
I think it stands to reason  
That they've let you fall down  
Now you're sore on the ground

Lame excuses won't last long  
Your crooked past  
Your tales of thrones  
The feigned innocence in your smile  
How could you possibly pretend and think it won't follow you back  
Now you seem to repent through the frail beady eyes of haunted man

## HEY HO

Dum-dum bullet right through my eye  
I am blown I am stunned and paralyzed

It's just a start of you and me  
On this epic trip

Don't hold back  
Release tears of joy  
Tomorrow I'll be paranoid  
So take this moment by its horns  
And make our bodies swing

I wonder what is wrong with me  
Why never missing company  
Bottles clatter in my hands  
Blame it all to Bill (Callahan)

Do I belong to her hands  
Where do I belong  
Do I belong to her hands  
Now I wanna go Hey Ho

Dreaming of bows and arrows never makes my landing save  
Dreaming of bows and arrows invites devil into game  
Dreaming of bows and arrows severe wound in unharmed flesh  
Dreaming of bows and arrows shuffling figures on the board

## **RAVEN**

Tucked in bed one summer night  
Strewn cushions and red wine to fight away my bellyaches  
Kaleidoscopic dreams  
Fed with the continuous stream of tapping at the window pane  
  
Watching pitch black raven flapping wings perched on my door  
Beguiling all my sad soul into endless smiling choir  
Watching pitch black raven sitting peacefully on the floor  
How the hell did it get here?  
Bombing me with "nevermore"
